# Letter from the President

## EDUCATION

The temperatures are down but the dreams of warm weather and lake and hunting time in the field are brewing warmth into my home. I hope it is in yours too!

As we step into this new world with a new president and new year in place, I am hoping some common sense in the conservation world is upon us, however, we all know that if there is social media, there will always be a battle from the uninformed, unfortunately. :(

This is where OSCSCI comes in. You all may not know it but we (SCI) are the absolute leader in political and educational issues on this big blue ball called Earth. We don't do much in

the physical space but with the laws in place for us all, all that land would be useless for hunting as it would all be banned or illegal and without the millions in anti poaching we spend, the animals would all be gone :(

How can you help? The least amount of work on your side is monetary and the most profitable for us to give us enough to work with is to buy tickets and tables to our events.

Yes, there is some financial gain from all the world wide hunts, trips and game tickets we sell, but not quite as much. The benefit to you is the Tax donation write off you get from the event tickets that you can't get from buying hunts and trips for under retail price.

This years focus for the event is OSCSCI's involvement in Education Programs. In partnership with the ODWC, we have an annual essay context

which touches kids all over Oklahoma! Unfortunately, we can only afford to Honor 4 of the kids each year with hunts of a lifetime and trips, however, if you all support us by buying tickets, auction items and direct donations, we can do more!!!

We are all hunters and fisherman but if we don't education our Youth, THEY will not have the same world to live in. Without Conservation, their view of wild animals will unfortunately be in books and movies only. They will never feel that heart pounding and pride of feeding the family!!!!

# Rules of The World: This is VERY Important Information

Please be aware and Read!

OKLAHOMASTATIONSOCI.ORG

**Rule 1:** All of these vendors have donated to our event to help us raise money to:

- Protect the freedom to hunt for all hunters not just for any specific species
- Educate on the value of hunting as a viable wildlife management tool
- Conservation of wildlife to preserve the heritage of hunting for future generations
- Do Humanitarian services

(We are here to RAISE money for the goals, not to get you a cheap vacation – that is just a side benefit)

**Rule 2:** There are taxes thought the world. These cannot be avoided and must be paid on, during or after your trip. These taxes (VAT's) are based on the **VALUE of your TRIP**, NOT what you paid for it! Some of the more common rates are: Argentina – 21-27%, Belize 12.5%, Canada 5%, South Africa 15%, UK and most of Europe 15% to 22%, USA 2.9% to 7.25%

**Rule 3:** Most of these hunting trips are a donation of your vacation time: lodging, food and drink, escorting you around and some value of trophy's. The expectation is that **you will in turn spend more money on an expansion of the donation** – heck, they just gave you a 10 day trip to someplace better than Disneyland (Which costs about \$18,000 for a Family of 4), please buy some rides!!

**Rule 4:** Unless stated as part of the donation, you need to pay all costs associated with your trip. This includes but is not limited to, Airfare, Taxis, a last hop trip from major airport to the hunt camp (Average \$300 per person) or back, hotels, food and life needs, Taxidermy, dipping etc. If NOT listed as INCLUDED, you must pay for it!!

**Rule 5:** Without Outfitters, there is no hunting, without Hunters, there are no Outfitters, Without either there is no money nor need to protect the animals of the Wild Kingdom and **they WILL perish**. This has been proven again and again ALL OVER THE WORLD and overall, today herds are bigger and stronger than they have ever been! This is done by donation money to events such as the one you are attending so PLEASE, Spend Spend Spend!!

**Rule 6:** NO Double Dipping! You cannot use 2 donations with the same Outfitter! If you win a game and a Live auction item with the same Outfitter, we will work with you to fix the issue. We have options and can talk to the Outfitter so play everything and do not worry, you will not be breaking this rule 😊

**Rule 7:** Life happens and the world changes (did we already forget about the 2 years of Covid shutdown?) There will be times when your trip cannot, be accomplished. We at OSCSCI and all of our vendors will do everything possible to fix any issue. At the end of the day though, we ask that you think about your donation purchase and work with us too. Requesting a refund has so many variables they cannot be written, but remember, you will be taking the money back that we at OSCSCI used to pay for your deposit or used on one of our many education or conservation programs (See Rule 1: )

**THANK YOU ALL FOR YOUR SUPPORT AND DONATIONS!!!!!!**

# SPONSORS

Sponsors are greatly appreciated for their 100% support for our programs. Please thank them personally through the night with us to show them your gratitude for this remarkable statement of support!

Oklahoma Station Chapter Safari Club International is a non-profit, 100% donated time organization with no employee costs, less than \$2500 per year in operational cost, (for website hosting, accounting software, email marketing service, stamps, bank fees etc: (banquet expenses not included), and an estimated 75% of every dollar we touch stays right here in Oklahoma applied to conservation programs.

Your contributions make major impacts to the long term support of conservation and the right to hunt through Student Essay and scholarship Programs, Teacher Continued Education Programs, Archery in The Schools Programs, ODWC Grants and Programs, and many more projects.

Unlike the Anti-Hunting Groups who are emotionally fueled and funded and do not actually fund the issues to fix them, we work the issues the right way, with sound science, biology, hard work and perseverance; partnering with the agencies in the state and around the world that are the right answer to control and manage the resources for all.

Knowing who we are and how we use your valued donations is important in today's transparency thinking world. The future of hunting is up to each one of us. It is our financial donations, our efforts in the political arena, and our ability to educate the uninformed public of the important role hunting plays in the welfare of the animal population and their habitat.

Our activities and energy must focus on 3 areas - Conservation, Education, and Governmental affairs.

As For This Magazine:

If you see something amiss, or have an idea for the future, or want to get more involved and help us out physically or financially, PLEASE let us know. If we spelled it wrong, misrepresented something, forgot to do something we said we were going to do, or something isn't just your flavor, remember the first line above – we are not paid professionals and do the best we can.

Have fun and enjoy everything we have put together, it has been a lot of fun work and many hours of frustration too, but in the end, it is well worth it as long as our kids and grandkids can enjoy this wonderful outdoor world we do!

# OSCSCI Blue Bag Program

## How to support:

**Bring some items to our event(s).**

**Direct donations.**

**Buy One of the Blue Bag logo'd items at our event(s).**

Giving back to communities is an SCI/F family value. SafariCare Blue Bags are filled by chapters, individual members, church groups or even groups of schoolchildren or scouts. The contents may include medical, educational, and other relief supplies, or clothing and toys. The Blue Bag is taken to remote areas of the world by hunters who have planned hunts in these regions. The supplies are delivered directly to villages, clinics, orphanages and schools, doctors, caretakers and teachers to use with people in need. SCI and SCIF, like so many organizations, put forth enormous effort each year to help improve the quality of life throughout the world.

How to Use: Contact US before your next trip anyplace. All places on Earth need support of some sort or another. Contact your PH or Outfitter of specific area needs. Together, we will get the items together, a letter for the airlines to ship for free, and prep a bag. You take the bag and contents on your trip. Take allot of pictures and videos and bring thm and the empty bag back to us.

**OSCSCI, with the help of U.S. Gun Totes wil Embroider your Family Name, County of Trip and Year on the bag.**

The next person or Family to go on a trip, contact us and repeat.

Let's make our OSCSCI Bag and community be a world impactor as we adventure the Globe!

# Partners in Conservation

OKLAHOMASTATIONSOCI.ORG

As you look around the room tonight, make sure you give ALL the conservation groups a THANK YOU! On any given night there is a conservation banquet going on someplace in Oklahoma with the end result being more help in the fight "To protect the freedom to hunt and promote wildlife conservation in the state of Oklahoma and worldwide." Oklahoma Station Chapter Safari Club International not only believes in working together, we give all conservation groups a free table, let them sell memberships and even do a raffle of their own if they wish! We are in this together folks! We'd like to recognize Dallas Safari Club as the newest group in the state and folks, we don't care about history, we care about the future.

There is one other group that MUST be applauded, that is our Oklahoma Department of Wildlife (ODWC). Oh, we may not see eye to eye on every topic, but these are the folks that work the majority of the conservation topics in Oklahoma. Without working with them, we could be like California very soon and have no wildlife left for our kids to enjoy. So tonight folks, buy them a beer (woops, we already did), so give them a BIG "THANK YOU" and enjoy the hard work when you get out in the field next.

# Sealed Bid Game

**Fill out one Sealed Bid Sheet per item with an amount you think will win and put it in the box in front of the item. The highest bidder will win so if you don't think you did it the first time, fill another one out and put a higher bid on it.**

A CHAPTER OF SAFARI CLUB INTERNATIONAL  
**SCI**  
 FIRST FOR HUNTERS

## (OSCSCI) Oklahoma Station Chapter Safari Club International, Supports and Contributes Funds Locally & Nationally

*The future of hunting is up to each one of us. It is our financial donations, our efforts in the political arena, and our ability to educate the uninformed public of the important role hunting plays in the welfare of the animal population and their habitat. Our activities and energy must focus on 3 areas - Conservation, Education, and Governmental affairs.*

*We, the members of SCI, are the last best chance that wildlife has to survive in a healthy habitat, and we have to preserve our right to hunt.*

**Oklahoma Station Chapter, SCI is a 501 c (3) Charitable Status Organization**

## Protect the Freedom to Hunt

**FINANCIAL SUPPORT TO PROTECT OUR FREEDOM TO HUNT & WILDLIFE CONSERVATION PRORAMS** - Thirty percent (30%) of net monies raised by the Oklahoma Station Chapter support programs that provide for full-time staff lobbyists & biologists in Washington, DC. SCI is the only hunting organization that has full-time lobbyists & biologists working to provide sound scientific information to influence legislation and regulations that affect hunting both at the federal and state levels. **OVER 75%** of funds raised by the Oklahoma Station Chapter are used in Oklahoma for hunting-education, wildlife-conservation and humanitarian-services programs.

**FINANCIAL SUPPORT TO OTHER CHAPTERS FIGHTING ANTI HUNTING REFERENDUMS IN THEIR STATES.** Support to Alaska Chapter to defeat a wolf referendum that would decimate ungulates (DEFEATED!).

## Conservation

### OKLAHOMA HABITAT DONOR PROGRAM -

- Financial support for the [Hackberry Flats Wetlands project, Frederick, OK.](#)
- Financial support for a "Quality Deer Management" program in Lincoln County, OK.

### RESTORATION OF RUFFED GROUSE & PRAIRIE CHICKEN -

Financial support towards restoration of ruffed grouse and Greater Prairie Chicken habitat in Oklahoma. Support for Audubon Society/OSC conservation project to protect the threatened Lesser Prairie Chicken in Northwest Oklahoma in conjunction with the Lesser Prairie Chicken festival.

### INTRODUCED EIGHT (8) ELK INTO THE EXISTING HERD IN SE. OKLAHOMA

- Chapter financed the purchase, transportation and release of 5 mature bred cow elk and 2 mature bulls plus radio-collar transmitters for monitoring purposes. These 8 elk will improve the gene pool in the existing elk herd in SE Oklahoma which is in cooperation with the Timberline Elk Ranch, Cushing, Oklahoma, and the ODWC. WE HAVE AN ELK HUNT! Way back OSCSCI populated the herd, now it is a reality! OK, not just OSCSCI effort but it was key!

### AIR BOAT (18 X 8'), 502 CU. INCH CHEVROLET ENGINE 502 HP RATING WAS PURCHASED FOR OKLAHOMA DEPT OF WILDLIFE CONSERVATION USE.

Over the past several years, the ODWC has worked to develop comprehensive lake-level plans supporting Japanese millet-seeding programs on Oklahoma Corps of Engineers lakes. Most of these areas are inaccessible to conventional boats due to very shallow water depths and are quite extensive in size, ranging from just a few acres to several hundred. The airboat offers a much higher degree of safety and durability, in addition to increased accessibility to the seeding areas, essential to ensuring the program's continued success.

**ODWC Contributions**— Since the foundation of the Oklahoma Station Chapter of SCI, over \$ 300,000 has been funded for various Wildlife Department programs either through direct funding or purchase of equipment for ODWC use.

## Education

**OSU SHOTGUN CLUB** – OSU Gun Club Representing Oklahoma State University, is dedicated to practicing and teaching gun safety while also participating in recreational shooting. We participate in competitions with other universities all over the United States, including but not limited to Wyoming, Colorado, Texas, Kansas, and others. OSCSCI worked with the gun club to fund their new Trailer and cargo container for on-site storage for all equipment as well as Liberty Safe for storing shotguns used by club members.

**SIGNIFICANT FINANCIAL SUPPORT FOR YOUTH EDUCATION & OUTDOOR PROGRAMS** – Archery in the Schools program (\$ 19,500), Last Frontier Council - Boy Scouts of America; Eddy Eagle Gun Safety program; Make a Wish Foundation, Youth Hunter Education Challenge, & the 4H Youth Shooting Team. Further provided initial funding to the ODWC to facilitate The Oklahoma Scholastic Shooting Programs and introduction in the schools of the Explore Bow Hunting Program

**OKLAHOMA CITY GUN CLUB YOUTH SHOOTING AREA** – Helped fund the structures needed to create a separate youth shooting area and the gun club with a \$1500.00 donation

**OKLAHOMA DEPT OF WILDLIFE CONSERVATION COLORING BOOKS** - We purchased 65,000 wildlife conservation coloring books for school children.

**CREATIVE WRITING COMPETITION** -An annual youth essay writing contest that focuses on America's hunting heritage sponsored through the Okla. Dept of Wildlife Conservation. Two students in the 11-14 age category win scholarships to attend a weeklong conservation program. One boy and one girl, 15-17, each win a guided hunt and presentation of their mounts at the Annual OSCSCI Awards Banquet & Charity Fundraiser. Norm Strung Youth Writing Contest – all category winners are put in for the National award years. Our Oklahoma kids win this VERY regularly!

**CONSERVATION EDUCATION SCHOLARHIP - AMERICAN WILDERNESS LEADERSHIP SCHOOL** - Each year, our Chapter and the Okla. Dept. of Wildlife Conservation sponsored two Oklahoma educators, and some years 3, for an 8-day experience at SCI's Granite Ranch near Jackson, Wyoming, in fields of wildlife ecology, firearm safety and shooting sports, camping, white-water rafting, stream ecology, natural resource management with a base knowledge from which to evaluate conservation efforts. They brought this training back to their classrooms to educate thousands of Oklahoma youth on the value of hunting as a wildlife management tool. Outdoor skills are also learned which include wildlife conservation, habitat management and additional outdoor sports skills are taught and learned including survival and all safety features of the shooting sports and other activities such as camping, hiking, fishing, wildlife and plant identification etc. Now many schools offer more outdoor classes than in the past decade.

**STEP PROGRAM** – Okla. Dept of Wildlife Conservation's Shotgun Training Education Program ("STEP") – OSCSCI supported this program by originally purchasing a custom built 26-foot long gooseneck equipment trailer. OSC purchased two additional trailers. These trailers carry the program's portable trap machines, firearms, ammunition, safety and gun maintenance equipment. In the past 10 years, 100,000 persons in the state of Oklahoma (65% are youth under the age of 18) have participated in STEP, learning the importance of hunting as a conservation and management tool and improving their shooting skills to ensure the humane harvesting of wildlife.

**OPERATION GAME THIEF TRAILER** – Okla. Dept of Wildlife Conservation's **Operation Game Thief ("OGT")** – OSCSCI supported this program by supplying funding in excess of \$28,500. The OGT is a program of the Oklahoma Department of Wildlife Conservation designed specifically to stop illegal killing of the fish and game which belong to YOU, whether you're a sportsman or not. It's a big problem with no simple solution. Help from the public sportsmen, makes a difference.

One day before the opening of a recent deer season, two men killed four whitetail bucks. Late one summer night, three men steered their boat across a state reservoir, stopped at their illegal net site and hauled in a load of striped bass and other open-water fish they could sell for \$1 a pound on the commercial market.

In each of these examples, you were the loser. You lost hunting and fishing opportunities or the chance to view wildlife in their natural surroundings. At the same time, law-abiding sportsmen received a bad reputation from those who fail to distinguish between legal and illegal hunting. OGT is something everyone can do to help wildlife and help us apprehend the poachers.

**OKLAHOMA WILDLIFE EXPO** – Our Chapter supports the ODWC - Wildlife Expo with significant funding and with workers. This is the biggest and the most successful comprehensive hands-on outdoor education experience and recreation event in State history. Approximately 45,000 attend annually. In 2008, OSC began “Predators of Oklahoma” with a game for thousands of youth to identify the animals and win a prize for successfully doing so (all eventually won). This program continues each year.

**WILDLIFE HERITAGE CENTER MUSEUM, ANTLERS, OK.** – Our Chapter contributed to the building of the museum/learning center in SE Oklahoma. The operation is a joint agreement of the Okla. Dept of Commerce, Okla. Tourism and Recreation Dept and the Okla. Dept of Wildlife. The facility will be utilized as a regional tourism attraction while at the same time serving as a wildlife and natural resource conservation public education center.

**SAFARI IN A BOX** - Safari in a Box is a K-12 education kit designed to provide exciting, hands-on learning. It gives teachers and others who work with young people resources and ideas to introduce youth to important concepts of habitat, wildlife management and impacts resulting from human and wildlife interactions. Initial SIB placement was in memory of OSC member David Rocker.

**"SCI SAVES CSI"** - 2009 support of OSU's "Insect Adventure", a project which teaches basic conservation principles to over 300,000 individuals in Oklahoma each year (and also contributes to the conservation of the endangered American burying beetle, a species valuable in Crime Scene Analysis).

## Humanitarian Services

**SAFARI-CARE** – On numerous occasions, OSCSCI members have traveled internationally and carried medical, educational and relief supplies to villages in need of support.

**SPORTSMEN AGAINST HUNGER** – OSCSCI originally funded 100% of operating expenses for the program in excess of \$200,000 annual budget. OSC also managed the program State-wide for over 10 years. OSC continues to financially support this program annually, with a \$ 2,000 contribution to ODWC.

**SENSORY SAFARI DAY** - A hands-on adventure for sightless and sight-impaired children and adults. Members loan their animal mounts for these people to see for the first time, through their fingertips, animals from around the world. The event is co-sponsored by the Okla. Dept. Wildlife Conservation, Oklahoma Station Chapter - SCI and the H&H Gun Range.

**VETERANS' HUNTS** – OSCSCI organized Mid-East-Conflict veterans' hunts in conjunction with Jay Barczak of Wild Game Outfitters-Duchess Creek Ranch, Porum, OK, and in conjunction with other supporters.

- Three veterans were drawn from public nominations for guided elk and deer hunts, which were complete with all accommodations.

- OSCSCI and Mankazana Safaris presented a Purple-Heart veteran the hunt of a lifetime. OSC supports our troops who protect our freedoms!

- OSCSCI hosted a disabled Marine Sniper Scout on a PERECT July Sheep hunt with Windsong Adventures in Eastern Oklahoma.

**OSCSCI BLUE BAG PROGRAM** – We project sending 1000's of dollars with our world travelers to buy supplies and needs to the kids and area needs of the paces they travel. Upon returning the blue Bag, we will embroider the Family Name, Country of Visit and Year on the bag. The next trip, repeat. Lets see how many place of the World the OSCSCI can impact!!

All of the wildlife mounts in the Arcadia Oklahoma training center for the Oklahoma Department of Wildlife Conservation have been donated to the Department by an Oklahoma Station Chapter SCI member -value of the donation in 2010 was valued in excess of \$49,000 at the time of the donation by a certified master appraiser.

### *Hunting Sharing the Heritage:*

If you are a hunter, there are certain sounds and sights that need no explanation. The crackle of leaves under their feet as they walk, the flicker of a whitetail off in the distance, and the snort of a doe nearby – if you know, then you know. All of these bring excitement to the deer hunter. According to the Oklahoma Department of Wildlife, for the 2022-2023 season, hunters reported taking 134,158

deer, a new record. For these people, hunting is a tradition; it's a heritage built on skill, memories and love for the land.

To be a good hunter, you must understand the skill. First, an Oklahoma Hunter Education course is required. Safety is the number one factor to a successful hunt. "Over the past 40 years, hunting-related accidents and fatalities have declined by more than 70 percent in Oklahoma" (Oklahoma Department of Wildlife, 2024).

This is largely due to these required courses. Aside from learning how to correctly handle a firearm, hunters must understand wildlife and how they live. For example, deer have strong sight and smell, so you must be very still and wear no scent when hunting.

Coming from a family of avid deer hunters, there was no question I would become a part of this heritage. I started hunting long before I was able to harvest my own animal. My dad began taking me with him when I was very young. I will always cherish the memories made with my dad and papa while in the tree stand.

There is nothing like watching the sun come up and listening

to nature. It is an escape from the world. I have now harvested my own deer, and I can remember stories from each one. However, what I remember most is being there with family, whether it was my dad, papa or sisters. Hunting is a tradition for our family – a true heritage. Finally, hunting is about loving the land. We should take care of our resources, and hunting is one way to do that. The Oklahoma Department of Wildlife provides a lot of information about wildlife conservation and the importance of hunting. By harvesting deer the right way, we are helping both "protect and enhance" our resources (Oklahoma Department of Wildlife, 2024).

According to Google's English dictionary, heritage means an inheritance, something passed on. When I think about the heritage of hunting, I think about skill, memories and love for the land. To be a successful hunter, you need both skill and a desire to take care of the land. However, memories are the most important. Heritage is about passing our love of hunting on to the next generation. I am thankful my family has passed it on to me, and I look forward to passing it on to my 2-year-old niece. Soon enough, she will hear the crackle of leaves, see the flicker of a whitetail, and hear the snort of a doe nearby – and then, she will know.

**Teegan Brownlee**

**Junior Division Boy**

**Grade: 8 Teacher: Matthew Belicek**

**Age: 13 School: Weleetka PS**

Hunting had been a part of my family for generations, and this trip was a rite of passage.

After getting dressed in layers, I pulled on my heavy boots and carefully lifted the rifle I had practiced with countless times at the range. There, under the glow of neon lights, shooting had felt clinical, almost like a game. But out here in the woods, the gun felt different. It was cold and heavy, not just in

weight but in meaning. I

followed my dad

outside,

where the air was sharp and

biting, the smell

of pine and damp

earth filling my lungs. He handed me a thermos of coffee. I took a sip and winced—it was strong, bitter, and as dark as the sky overhead. He chuckled, his breath misting in the cold air. “It’ll grow on you,” he said.

We walked side by side up the trail in silence, the only sounds the crunch of frost-covered leaves beneath our feet and the occasional creak of branches swaying in the wind. After about a mile, we reached a small clearing, and my dad held up a hand, signaling for me to stop. He knelt down, gesturing for me

to do the same. I crouched beside him, feeling the damp earth beneath my knees, and took in the world around me.

The first slivers of dawn were just beginning to edge over the treetops, casting everything in a soft, muted light. The forest was waking up slowly, like a living, breathing thing. The silence I’d found oppressive in the dark now felt serene, almost sacred. I closed my eyes, letting the sounds seep in: the distant rustle of leaves, the faint calls of birds, the soft, rhythmic trickle of a nearby stream. Each noise felt magnified, as though the forest was trying to tell me something if I could only listen closely enough.

After a while, my dad reached over and pointed toward a fallen log a few yards ahead. “This’ll be a good spot to wait,” he whispered, barely audible. Together, we moved over and settled in, rifles resting in our laps. The minutes dragged on, and I found myself shifting uncomfortably, my fingers growing numb even inside my gloves. Every rustle of leaves made my heart race, only to sink again when it turned out to be nothing but the wind or a squirrel darting by.

\*\*\*"My First Hunt"\*\*\*

It was still pitch dark when my dad woke me. I had barely slept the night before, and it wasn’t because of the lumpy cabin mattress or the cold draft seeping in through the walls. I was excited and nervous, my mind replaying every instruction my dad had given me in the weeks leading up to this moment. Today was my first hunt, and while I didn’t know exactly what to expect, I knew it was a big deal.

My dad, however, was the picture of calm. He watched the forest with a quiet, almost reverent patience that fascinated me. This was the same man who, in everyday life, was always bustling around, fixing things, organizing, constantly in motion. Here, though, he was different. Hunting, I realized, brought out a quiet side of him that I hadn't seen before.

Finally, as the sun started to rise higher, casting the forest in golden light, my dad nudged my arm and nodded ahead. I followed his gaze and felt my breath catch. About a hundred yards away, almost blending in with the shadows, stood a deer. It was beautiful—its coat a rich, tawny brown, its eyes bright and alert as it grazed quietly. The sight of it filled me with an almost electric thrill, a mix of excitement, awe, and some-

thing I couldn't quite put my finger on.

My dad gave me a reassuring nod, reminding me of everything

we'd practiced. I lifted my rifle, settling it against my shoulder, and peered through the scope. The deer was right there, clear and close in my sights. My finger hovered on the trigger, and I took a deep, steadying breath. But as I looked at the animal, something shifted inside me. The deer wasn't just a target—it was a living creature, oblivious to my presence, peaceful in a way I couldn't describe.

I glanced at my dad, searching for guidance, but he simply watched me, his expression unreadable. I could tell he was

leaving the decision up to me. I looked back through the scope, my finger still hovering on the trigger, and felt a wave of hesitation. I thought about the stories he'd told me of respecting the hunt, of the importance of only taking what you needed, of the unspoken agreement between the hunter and the hunted.

In that moment, I knew I wasn't ready. The thrill I had imagined didn't match the reality before me. I slowly lowered the rifle, letting out a breath I hadn't realized I'd been holding. My dad didn't say a word, but he placed a hand on my shoulder, giving it a gentle squeeze. There was no disappointment in his eyes, only understanding.

The deer, unaware of how close it had come to danger, lifted its head, ears twitching. It stood there for a moment, almost as if acknowledging us, before it turned and bounded off into the trees, vanishing as quickly as it had appeared.

In the years that followed, I went on many more hunts, each one teaching me something new. I eventually made my first successful shot, and I've filled my share of tags since then. But that first hunt, when I chose to let the deer go, stayed with me. It wasn't about the thrill of a kill; it was about learning patience, respect, and the weight of responsibility that comes with hunting.

something raw and real. That morning in the woods with my dad taught me that the greatest rewards aren't always in the trophies we bring home. Sometimes, they're in the quiet choices, in the moments when we let life continue. And for me, that first hunt will always be a reminder that sometimes the most meaningful part of the journey is knowing when to lower the rifle, to step back, and simply be a part of the world around you.

I still go hunting with my dad every season,

and each

time I return to

those woods, I'm

reminded of that

first morning. I see

my younger self in every first-time hunter, that mix of excitement and nervousness, that need to prove something. And every time, I find myself hoping they'll come to understand what my dad taught me that day. Hunting is a tradition, yes, but it's also a privilege—a chance to connect with nature, to honor the lives within it, and to walk away with memories and lessons that last long after the hunt is over.

Hunting has become a way for me to find peace in the chaos of life, a way to reconnect with

On the way back down the trail, my dad put his arm around my shoulder, pulling me close. "Hunting isn't just about taking a shot," he said softly. "It's about understanding when the time is right, and knowing when it's not. You did good today." I felt a warm swell of pride at his words, a sense of validation that went deeper than any trophy ever could.

Archery has skyrocketed upward, especially in my small community of Depew. Archery has been impactful to my life and the lives of my community, because it has increased the number of people involved in the sport of hunting as well as developing a deeper respect for wildlife and the great outdoors. A hidden life lesson resulting from the sport of hunting is the teaching of patience and self discipline as well.

The amount of deer harvested in Oklahoma during 2023 was the highest it's ever been, setting a new record. The

archery aspect rose drastically as well. Although in some regions of the United States bow hunting rates the highest, in Oklahoma rifle hunting is still ranked number one. What leads bow hunting to be highly successful considering that not as many people hunt archery in Oklahoma, is its season runs so much longer than the others. Personally I hunt both rifle and bow, but bow hunting has to be my favorite. It is simply to me more challenging. Just by having to get the deer closer into range, and then getting to hear the pop of the string on the si-

lencer is like heaven! The anticipation bow hunting brings is like no other, which makes it that much more fun. One of the things I love most about bow hunting is when you finally get up to your harvest and you get to hold the rack of the buck in your hands, and get to take a picture with your kill and bow. You just can't beat that on a cold, crisp November morning.

Another thing archery has taught me is patience and self discipline. If archery has taught me anything, it is that you have to be willing to correct your mistakes. Whether it's resighting in your bow or aiming longer and more steady. When I first started NASP in my AG class, I had to learn to be more steady on my aim and release. Every time I fire my bow and hit the 10 circle in NASP, or when I hit the 10 circle on the turkey in varsity it's like a sigh of relief.

## *Archery: What I like about Archery in the Schools and Bowhunting:*

Imagine a classroom where students, instead of just learning core subjects such as English and math, also learn patience, precision and respect for nature through the act of archery and bowhunting. Since archery was brought into schools, the amount of youth participating in

row with accuracy is like a 45lb plate lifted off of you. One of the main things archery has taught me is that patience and practice is key to success.

I started hunting when I was a young boy. I started out rifle hunting with Marlin 30-30, then I got into bow hunting when I was 12 with a Mission Compound bow by Mathews. I now love bow hunting because the season is so much longer than any other. Then you can get

bucks before they start

chasing

doe's in

the rut,

which typically

come during rifle

season. During

bow season you

can catch them on corn piles usually at dawn and a little before dusk. When in the stand on a crispy, cold November morning before dawn, you get to see magic happen, as squirrels start to come out of the trees, or as rabbits come out of their dens. But the best of all is the beautiful Oklahoma sunrise you get to witness in nature's glorious beauty.

Like a skilled bow hunter or an archer consistently draw backs their bow with accuracy and precision to the target circle or lungs of a deer, we too must in life guide ourselves with accu-

racy and determination, like an arrow flying through the air. Life is like archery, in that the journey may present difficulties like if the wind is howling in the wrong direction and the deer smell me and they run off. I don't get to shoot one that day, but that doesn't mean that I'm supposed to give up. You have to have determination and never give up when you face difficulties. In embracing this consistency we can transform our dreams into reality, like a master bow hunter shooting a big buck with precision, accuracy in the woods. In my mind the sport of archery and hunting are legacies that not only have been passed down to me but I will surely pass down to my children in the future.

One thing archery and bowhunting gives me is a sense of accomplishment. Whether it's successfully tracking a deer, or it's watching a comet of hope fly from the 15 meter line in NASP. It just gives you the feeling you have something to be proud of. Every time you release an ar-

dividuals.)

When I turned eleven, my brother, dad, grandpa, and I built a hunting cabin. It was small and cozy. My dad and brother spend the whole summer before collecting pine and cedar trees to mill logs for building materials- I had the best place controlling the sawmill. After we finished the cabin, we cleared hunting areas that we hand selected for my siblings and I to hunt. I chose

to place my stand

through a green briar thicket with a large walnut tree overlooking a small creek running

into one of the ponds. We worked very hard with my family to build a place and spend time together. The cabin was complete, I dug out ponds for wildlife with my grandpa, and now I could focus on getting a bigger deer than my brother! I woke up on Saturday morning to put out a corn feeder for all the mothers and yearlings to snack on their nightly adventures. In addition, I put out a motion camera out near my deer feeder to see what animals were enjoying all our hard work! You would not believe what images and animals I was capturing on film. I saw many yearlings, raccoons, a few opossums, and a couple monster bucks. I was so excited.

A few weeks of impatiently wait-

ing and it was my time to shine. It was opening season morning. I dressed warm, gathered my gun, and loaded up the ATV with my siblings. It was about 6' o'clock when I climbed up my walnut tree. The smell of wet bark was soothing to the cold brisk air. I played with the moss growing on the tree for a few hours. I was losing hope. I can be a little impatient at times... I was singing Strawberry Wine by Deana Carter in my head when I noticed a flicker of white along the creek bed. It was a doe and her yearlings! She took her time walking towards my feeder. The doe occasionally looked behind her so I prayed that it was my buck. It was my buck! I was very happy and surprised. Immediately I began to shake in disbelief. I swear the temperature dropped at least 10 degrees as soon as I saw him. I grabbed my 30-06 slowly and looked through my scope. There he was, a 12 point buck! He strolled towards the other deer eating corn. He went through the green briars in my direction. As soon as he turned horizontally in perfect view the deer feeder turned on, scaring them. I panicked. I knew it was time. I took a deep breath and squeezed the trigger. The gun roared as I took my shot as my deer fell right where he stood.

## *Sharing the Heritage:*

My grandpa lived in a small community outside of Henryetta, Oklahoma. When I was ten years old he retired and purchased 80 acres on a mountainside near a town called Weleetka. It was a beautiful property. It had fields flowing with tall crisp grass, cedar trees along the newly build fences, and new ponds across the property. My grandfather loves being out in nature! He is nearly 80 years old and continues to maintain cattle, hunt, fish, and enjoy his days of retirement. (I suppose anyone who served in a world war would want a place to escape car horns and loud in-

# *Oklahoma Station Chapter of Safari Club International*

The mission of the Oklahoma Station Chapter SCI is to protect the freedom to hunt and promote wildlife conservation in the state of Oklahoma and worldwide.

## **SCI serves four basic tenets:**

- Protect the freedom to hunt for all hunters not just for any specific species
- Education of the value of hunting as a viable wildlife management tool
- Conservation of wildlife to preserve the heritage of hunting for future generations
- Humanitarian services

Our members are conservationists who hunt and embrace the highest of ethical standards. We find no irony in this because we believe that hunting and conservation are not only compatible, but inseparable.

We believe that habitat and wildlife must be kept in balance, and that wisely managed hunting is the best way to accomplish this. Professional wildlife managers have proven that total protection is not conservation. There are many examples of what happens when species are allowed to exceed what their habitat can support.

The right to pursue wild game is a heritage handed down through the generations, and we intend to protect this cherished heritage. When a species is threatened due to habitat loss, political neglect or a natural disaster, SCI steps in with money and effort. Our members are proud to be helping preserve wildlife through our hunting fees and our financial support for professional wildlife management based on science, not philosophical or political bias.

These taxes (VAT's) are based on the **VALUE of your TRIP**, NOT what you paid for it! Some of the more common rates are: Argentina – 21-27%, Belize 12.5%, Canada 5%, South Africa 15%, UK and most of Europe 15% to 22%, USA 2.9% to 7.25%

**Rule 3:** Most of these hunting trips are a donation of your vacation time: lodging, food and drink, escorting you around and some value of trophy's. The expectation is that **you will in turn spend more money on an expansion of the donation** – heck, they just gave you a 10 day trip to someplace better than Disneyland (Which costs about \$18,000 for a Family of 4), please buy some rides!!

**Rule 4:** Unless stated as part of the donation, you need to pay all costs associated with your trip. This includes but is not limited to, Airfare, Taxis, a last hop trip from major airport to the hunt camp (Average \$300 per person) or back, hotels, food and life needs, Taxidermy, dipping etc. If NOT listed as INCLUDED, you must pay for it!!

**Rule 5:** Without Outfitters, there is no hunting, without Hunters, there are no Outfitters, Without either there is no money nor need to protect the animals of the Wild Kingdom and **they WILL perish**. This has been proven again and again ALL OVER THE WORLD and overall, today herds are bigger and stronger than they have ever been! This is done by donation money to events such as the one you are attending so PLEASE, Spend Spend Spend!!

**Rule 6:** NO Double Dipping! You cannot use 2 donations with the same Outfitter! If you win a game and a Live auction item with the same Outfitter, we will work with you to fix the issue. We have options and can talk to the Outfitter so play everything and do not worry, you will not be breaking this rule 😊

**Rule 7:** Life happens and the world changes (did we already forget about the 2 years of Covid shutdown?) There will be times when your trip cannot, be accomplished. We at OSCSCI and all of our vendors will do everything possible to fix any issue. At the end of the day though, we ask that you think about your donation purchase and work with us too. Requesting a refund has so many variables they cannot be written, but remember, you will be taking the money back that we at OSCSCI used to pay for your deposit or used on one of our many education or conservation programs (See Rule 1: )

**THANK YOU ALL FOR YOUR SUPPORT AND DONATIONS!!!!!!**

# Live Auction

Let's get ready to rumble!! The live auction is, of course, the most entertaining part of the night. You **MUST** have a **BIDDER NUMBER** to bid on live auction items. If you do not have one, proceed immediately to check-in to get yourself one, you'll feel more like one of the cool kids for sure.

To bid; raise your hand, flag your napkin, raise your partner, stand and yell at the auctioneer – just about anything works to get some attention! Don't miss the hunt of a lifetime because you couldn't get seen!!

The page in the Auction book has all the information you need. If it is a hunt or a trip you won, you will get an email connecting you to the outfitter and any other info that may be required.

## 2025 EDUCATION BENEVOLENT SPONSOR

**Kannady Family      \$20,000**

The Kannady Family has stepped up and given the Oklahoma Station Chapter Safari Club International a Direct Donation of \$20,000.00 for our Education Program!

As you have just seen, this program is a major part of our ongoing mission to protect the freedom to hunt and promote wildlife conservation in the state of Oklahoma and worldwide.

The number 1 issue we face today is the reduction of hunters each year. This program gives all of the kids involved something to compete for, entices them to think about hunting or conservation while writing an article, and for the winners, A DREAM COME TRUE!

Just imagine if we could expand this program to more kids, and families and more schools and teachers! We can, all it takes is for folks to open their hearts as The Kannady Family has and follow their lead.

It is now time for a Direct ASK, of the people in this room, to Match or Exceed The Kannady Family Donation, either all by yourself or as a total of the room.

Please help US help YOU and your grandchildren by supporting our programs.

**THANK YOU ALL!!**

**100% Donation**

Travel to Lake, bring your own food and drinks, anything you need to survive the fun and sun of Oklahoma and take a special break from Life. We can do any of the great things Oklahoma Lakes offer! The flexibility of a SeaDoo Switch Tri-Toon boat will astound you. We could go fishing with the cruise set at 1MPG so no need for a trolling motor (even though I have one), then pump it up and Ski, Tube, Wakeboard or pull up to a party cove as the cool kids, or even bow fish at night with all the LED's lit up 😊 The plan of what to do is up to you, the rules onboard and captaining are up to me.

DragonClerk will bring the boat, life jackets, tents, a couple air beds, some fishing gear (but we are not a fishing outfitter) the gas, bow fishing gear, water toys (AirChair, Tube, Water Guns, etc), fuel and cover all lake permits for the boat for the day. All you have to do is show up at the dock and step on.

Another option is super late night, swimming in the dark while anchored in the deepest area we can find, or maybe some duck/goose hunting after the top and sides get put back on to make it dry and warm. In reality, there are so many options, one could never list them all here so lets go get wet ... or at least get on the water!!

'Ibamba', an African word that describes the moment when a predator takes its prey — that instant ecstasy and pride, when the hunter has successfully stalked his target, and made the kill. At Ibamba Safaris our goal is to make your African adventure a once-in-a-lifetime experience for the first-time or experienced hunter who wishes to walk in the footsteps of the great African hunters of the past. Our hunters are housed at the luxurious Lands of Loyal, an 18th Century duke's estate, that serves some of the best meals you will find anywhere in the world.

Your hunt includes the harvesting of one hill stag. These are stags that have been born and raised in the high Scottish heather and are allowed to reach maturity that enables them to sport a nice set of antlers.

### EMBRACE THE NORTHERN PATAGONIA HUNTING'S TRADITION WITH CATENA SAFARIS ARGENTINA

Our preferred hunting method is typically spot and stalk, guided at a 2x1 ratio. Although we do have blinds available, the majority of the hunt will involve spot and stalk techniques. The hunting activities start from early morning and continue until dusk, ensuring ample time in the field. During the midday break, you'll have the opportunity to savor our talented chef's delicious meals and experience a traditional Argentine siesta to recharge before the afternoon hunt. As the day comes to a close, a satisfying dinner awaits, accompanied by refreshing drinks, engaging conversations, and laughter around our spacious fire pit.

Our Andalen Lodge is located in the Northern Patagonia region of Argentina, combining the best landscapes, soft hills, woods, and sand-hills, our ranch becomes the perfect place for red giants spot and stalk, bow or rifle hunting.

Situated in the heart of La Pampa state, Catena's ranch offers an exceptional setting for this once-in-a-lifetime experience. At Ibamba Safaris our goal is to make your African adventure a once-in-a-lifetime experience for the first-time or experienced hunter who wishes to walk in the footsteps of the great African hunters of the past. Ibamba Safaris will provide you with an unforgettable experience: a journey under the African sky that you and your family will remember for generations to come.
