The view through the President's sight:

THINGS ABOUT WHICH YOU SHOULD FEEL VERY GOOD...

I hope that 2009 was a very rewarding year for you. Please permit me to remind you about some of the good that <u>you</u> did for other people last year...just a few highlights...

- ... **You** encouraged many thousands of Oklahoma youngsters to appreciate nature and to advance their interest in hunting and wildlife conservation.
- ... **You** gave something back to Oklahoma's military-veteran community, enabling several veterans to enjoy special hunting experiences.
- ... You helped feed many thousands of needy Oklahomans.

Those are just examples. Feels good, doesn't it! You did all of this through your participation in our Oklahoma chapter of SCI. You did lots of other good things toward protecting the right to hunt and conserving our wildlife, but those efforts that directly help individual people are particularly easy, and appropriate, to feel good about. These same efforts are far-sighted steps toward preserving the hunting heritage we cherish.

You also made it possible to work with ODWC, ORU, and the Audubon Society...to participate in and enhance their wildlife-conservation and education projects; and you made it possible for your passionate interest in hunting to be communicated face-to-face in the offices of every one of our seven Oklahoma congressmen in Washington D.C.—something really important to do!

So, what do we do in 2010? That very largely depends on what you do on March 6th.

The economy hit us very hard a year ago. Your board of directors has since made tough but necessary decisions that reduced operating expenses. Unfortunately, we still had to reduce funding of some of our programs. Please keep in mind that the proceeds from the upcoming banquet fund the year's activities—the very reasons why we all belong to SCI.

We've taken some bold steps for the March 6th banquet...most notably removing reserve prices on most auction items, even at risk of losing money on many. We've planned a great list of items...with more North American hunts than we've been able to include in the past. We have a variety of other fun, prize-winning activities, and-again to hold down costs--a "Western" BBQ-buffet dinner. Speaking of "Western"...if you're inclined, please dress in your best "Western" garb; we'll award a prize to the "best-dressed" couple!

Last but not least, we've reduced the price of banquet seats and tables, and we've arranged for everyone that attends to receive a free year's subscription to a useful weekly list of available local and international hunts; so this is an especially good year to bring your friends!

I look forward to seeing you in a few weeks!

PREPARE FOR BANQUET/FUNDRAISER 2010!

We've worked hard to reduce costs, to ensure that you have a great time, and to add value for each and every participant!

- ... We've reduced the cost of seats and tables.
- ... We've arranged that every guest receive a <u>free year's subscription to "The Worldwide Hunting Report"</u>... a nominal \$40 value.
- ... We've removed the reserve prices from most auction items.
- ... We're going to have a great "Western" BBQ-buffet dinner... not the sitdown-and-be-served meal of past years, but a fun and more cost-effective way to carry on.
- ...We've added <u>more fun activities</u>, each with opportunity to take home great items!

HOW DO YOU PREPARE?

...If you have not yet done so, please purchase you seats/tables now! March 6th is literally just around the corner. (see the ticket purchase form in this issue of *Safari Trails* and on our Chapter website: www.oklahomastationsci.org)

- ...Want to dress "Western"? We encourage you to put on your best "Western" garb. The "best-dressed" couple will win a nice prize!
- ...Planning to bid on one or both of the great "Hurd" deer feeders? Please, if possible, bring your pickup or trailer, and take it/them home with you!
- ...Bring your family and friends to this special once-a-year event!

SEE YOU VERY SOON!

FREE HUNTING REPORT

Q&A: "So what's the free hunting report that everyone gets when they attend the March 6th banquet?"

Worldwide Hunting Report

A Weekly Listing of Places To Hunt from Around the World.

Q: "So what's the free hunting report that everyone gets when they attend the March 6th banquet?"

<u>A</u>: This is a listing of hunts and places to hunt around the world (but mostly close to home). The list is updated weekly, with recent issues each containing 300-400 entries and with a weekly turnover of 75-100 listings.

... The report is organized by type of hunt: "upland bird", "waterfowl", "deer", "elk", "hog", "mule deer", "antelope", "turkey", "varmint", "exotics", etc.

... Each of the above categories is further organized by location.

... While it's a "Worldwide" report, the vast majority of listings are for hunting opportunities in the US... and by far most of these are in states bordering or very close to Oklahoma.

Q: "How long has the report existed, and what's the report worth?"

<u>A</u>: The report has been published for 12 years, and an annual subscription sells for \$39.95—but everyone attending the March 6th banquet will receive a year's subscription for free (unless someone doesn't want it, of course).

A sample (all 29 pages...one of last month's reports) is provided in this issue of Safari Trails.

RUSH LIMBAUGH-Hunting Villian of the Year?

By Greg R. Lawson, Director of Communications

Rush Limbaugh has won a knock down drag out contest over such anti-hunters as Ingrid Newkirk and Cass Sunstein to become the number one villain of hunters and anglers in 2009.

No, El Rushbo may not be twirling a handlebar moustache anytime soon, but he did manage to come out on top in Field and Stream's 2009 "Hunting and Fishing Heroes and Villains Face Off." This very amusing, tongue in cheek website feature matched up some of America's leading defenders and opponents of hunting into a single elimination tournament to see who are both the top hero and the top villain for outdoor sports this year.

In the shocking final round, Rush knocked off PETA founder Ingrid "a rat is a pig is a dog is a boy" Newkirk who had advanced to the final by overwhelming the new "Regulatory Czar" Cass Sunstein.

How did this happen?

Well, the author did a great job explaining his position in this follow up piece at Field and Stream.

Indeed, Rush taped not one, but two public service announcements supporting the number one enemy of sportsmen nationwide- the Humane Society of the United States (HSUS) earlier this year.

As the U.S. Sportsmen's Alliance (USSA) made

clear when we learned about the ads, sportsmen nationwide were shocked. Maybe Rush doesn't hunt or fish himself, but to give HSUS political cover by making it seem like they are a-ok was a major disservice to thousands of his fans. In fact, the USSA felt so strongly about this, that we were one of the leaders in a serious effort to get Rush to disavow the recordings and expose HSUS.

Though unable to get Rush to publically admit this mistake, the USSA was able to get a lot of media attention on the issue including stories at ESPN, LA Times, New York Post, Outdoor Life and the Washington Times. This effort definitely helped raise the curtain for the general public on just what HSUS's long-term agenda.

Of course, the USSA also led a campaign against one of the runner ups too - "Reg Czar" Cass Sunstein and got within five votes of stopping him from taking over the most powerful regulatory position in Washington.

Maybe next year, the USSA should do its own "heroes vs. villains" smackdown tournament. What say the readers?

Let me know, glawson@ussportsmen.org

IF THE SENTIMENTALIST WERE RIGHT, HUNTING WOULD DEVELOP IN MEN A CRUELTY OF CHARACTER. BUT I HAVE FOUND THAT IT INCULCATES PATIENCE, DEMANDS DISCIPLINE AND IRON NERVE, AND DEVELOPS A SERENITY OF SPIRIT THAT MAKES FOR LONG LIFE AND LOVE OF LONG LIFE, AND IT IS MY FIXED CONVICTION THAT IF A PARENT CAN GIVE HIS CHILDREN A PASSIONATE AND WHOLESOME DEVOTION TO THE OUTDOORS, THE FACT THAT HE CANNOT LEAVE EACH OF THEM FORTUNE DOES NOT REALLY MATTER SO MUCH. THEY WILL ALWAYS ENJOY LIFE IN IT'S NOBLER ASPECTS WITHOUT MONEY AND WITHOUT PRICE. THEY WILL WORSHIP THE CREATOR IN HIS MIGHT WORKS, AND BECAUSE THEY KNOW AND LOVE THE NATURAL WORLD, THEY WILL ALWAYS FEEL AT HOME IN THE WIDE, SWEET HABITATIONS OF THE ANCIENT MOTHER.

One bacterium kept at 98.6°, if left for 6 hours in an enclosed environment, can multiply into 131,072 bacteria. That's incredible! Yet people still continue to treat the animal like it's an old piece of luggage, throwing it in the back of the truck or on a trailer and leaving it exposed to the outside elements for hours, if not days.

The growth of bacteria at lower temperatures can be a good thing, it's called aging. Let me pose this question to each of you. Would you eat meat if it were hung in a cooler for 3 days at 35°? You bet! And it would be great. Now the same question, would you eat meat if it were hung outside in 60°, 70° or even 80° weather? Not a chance!

It's the hunter's responsibility to provide the best quality care for the animals they harvest each and every time. It makes no difference if you're 5 miles or 500 miles from home, that animal sacrificed its life for the table fare we crave each and every year. This should require us as hunters to make the commitment of taking every measure and precaution to prevent or at least reduce the chance of losing edible meat from unseen forces of nature.

In today's fast paced world, the processors don't have the time or the space to let your deer hang in order to age properly. They skin it, cool it down, process it, freeze it and get it out the door. It's all about them making money!

In this article, we have addressed the common problems we all face during hunting season. Heat, moisture, bacteria and flies! Now we want to introduce you to the solution.

Trophy Bag Kooler™ is a revolutionary new product with "PATENT PENDING" technology that is scientifically developed and hunter tested.

"THE WORLD'S FIRST AND ONLY YEAR ROUND PORTABLE ENVIRONMENT SUITABLE FOR HARVESTED GAME!" A MUST HAVE PRODUCT FOR EVERY HUNTER!

- · Keeping your harvest cool and clean is paramount for preventing spoilage
- Uniquely designed short-term portable storage unit allows for a cleaner, neater transport of harvested game
- Thermal Radiant Barrier Energy Shield Technology along with anti-microbial properties
- Water resistant 600D polyester outer shell has the durability to last for years
- Dual purpose antler flaps and draw string leg holes with slide lock helps to eliminate flies

The Trophy Bag KoolerTM can maintain temperatures of 36° to 40° or even colder, we recommend using KoolerGelTM or with double-bagged ice. This helps keep moisture to a minimum and by reducing the temperature to below 40°; you can slow the growth of bacteria and preserve your harvest.

Remember:

Don't Spoil Your Hunt! Keep It Kool™

Hennessey Vietnam War vet wins hunting trip to South Africa

[Excerpted & edited from an article by Joe Malan, Staff Writer for the Enid News and Eagle]

HENNESSEY — Larry Jack Toney received three Purple Hearts, two Bronze Stars and numerous other war accolades following his two years of service in Vietnam. Forty years later, the 61-year-old veteran will be going overseas again, though not to war this time.

Instead, Toney will be going to South Africa on a seven-day hunting safari. The entire trip will last 11 days, from April 18 to April 29. All expenses, including airfare..., the hunting excursion itself, [trophy import, and taxidermy] are being paid for [thanks to the efforts of Safari Club International's Oklahoma Station Chapter].

Toney, who lives approximately three miles north of Hennessey, said he was overwhelmed when he recently received word he had won the trip. "It's a trip of a lifetime," he said.

[SCI's] Oklahoma station created a contest earlier this year, which gave a war veteran living in Oklahoma the opportunity to go on the hunting trip. In order to have been considered for the prize, veterans must have been awarded a Purple Heart for service prior to May 8, 1975.

Mike Mistelske, of [SCI's] Oklahoma chapter, said Toney was selected as the recipient of the trip based on the service to his country. "Jack has a very impressive record," Mistelske said.

Safari Club International is a non-profit organization whose goal is to protect [the right to hunt] and conserve wildlife. Mistelske said the club recently decided they wanted to do more for the veteran community in Oklahoma, so with the aid of a few African [and other] contacts, they were able to assemble the trip package.

Toney said about a month ago the Oklahoma chapter contacted him and said the trip was down to two people — him and another Oklahoma veteran who also had three Purple Heart awards....

Toney said he will fly into Johannesburg, South Africa, on April 18, then make the trip down to Port Elizabeth, where the excursion will begin. "I'm curious to go see the people and how they live," Toney said. "The hunting will be tremendous, but to go see another lifestyle (would be great)."

As an added bonus, Toney gets to bring a companion on the trip, whose expenses also are completely paid for. Toney chose to bring his 33-year-old son, T.J., along. "He's pretty excited," Toney said

Note by Mike Mistelske:

The many components of this trip were donated by Mankazana Safaris and Mankazana Safaris North America LLC, Fauna And Flora, The Wildlife Gallery, McKenzie Taxidermy Supply, the members of the Oklahoma Taxidermists Association, Delta Airlines, and individual members of SCI in Oklahoma and many other states. Our SCI chapter provided coordination of all contributors.

Cape springbuck

Pickup from and return to the airport in Port Elizabeth is included, or guests may prefer to rent a vehicle and combine their visit to Mankazana with a tour of the Eastern Cape's beautiful ocean coastline. Sidetrips can be arranged for various activities, including a visit to famous Addo National Elephant Park, or for deep-sea fishing.

See Mankazana Safari's website for much additional information.

SCI-OSC President and frequent African hunter, Mike Mistelske, will assist you in organizing all aspects of your trip. If you are a first-time African hunter, have no worries; Mike will help you with everything.

<u>ADDITIONAL VALUE</u>: Henry Durrheim of RiflePermits.com in Johannesburg will discount his normal \$90/hunter fee to \$50 for obtaining your RSA firearms license in advance of your arrival. Using such a service is highly recommended.

UNLIKE MANY OF THE HUNTS THAT ARE PROPOSED by African outfitters, where trophy fees are so high that even free daily rates aren't worth it, Mankazana's trophy fees are competitive, and the operation is a superior one.

The species and the location distinguish this hunt from all other African hunts offered at this fundraiser.

At Auction: Installed muzzle brake (rifle or muzzleloader)

Value: \$200

With diminished recoil on all rifles, you can get a quick second shot because of the greatly reduced muzzle jump. Even shooting 150 grains of powder in a muzzle loaded gun will not rock your world! The vented smoke will not obscure the view of the target and the result of your shot, making it possible for a quick second shot if needed.

Other brakes are designed to vent gases rearward to aid recoil reduction. This naturally increases the decibels behind the firearm dramatically. The C & C Brake vents gases perpendicular to the barrel, which results in some increased decibels rearward, but most are directed horizontally with the smoke.

Rifle Brake A101-1

Rifle Brake our muzzle brake is unique, or even revolutionary. It has been designed flat, making possible its use on any iron-sighted gun. On muzzleloaders, it allows the placement of the ramrod in its cradle with no interference from the brake.

Black Powder Brake A101-3

Black Powder Brake Some brakes are designed to vent gasses rearward to aid in reducing recoil. This naturally increases the decibels behind the firearm drastically. The C&C brake vents gasses perpendicular to the barrel, which results in some increased DB's rearward, but most of the DB's are dispensed horizontally with the smoke. Includes the ramrod extension for cleaning and extension tube for loading the powder.

HUNT BUD CONSULTING - S. DAKOTA BIG GAME OR PHEASANT - or WYOMING OR MONTANA - YOUR CHOICE!

Hunt: 4–day; rifle Mule Deer or Whitetail Deer or Pronghorn, or pheasants; for 3 hunters; winners' choice!

Where: South Dakota (Wyoming

or Montana also possible)

Value: \$9,000

Date(s) of Trip: To be set by mutual agreement, 2010 or beyond

Description: John Coulter, owner of <u>Hunt Bud Consulting</u>, and his son Andy are once again providing us a very unique hunting opportunity: your choice, pronghorn, deer (mule or whitetail), or pheasants (some tags only by drawing; some over-the-counter).

The hunt will be for one species; you decide what you want to do.

4 days of hunting, 3 hunters, \$9,000 value:

In South Dakota, mule deer is by drawing only; whitetail or pronghorn by drawing or left-over tags (a virtual certainty). John will assist with license applications, including option to try for larger mule deer in western SD. Hunters may enter drawing for preferred license and then, if unsuccessful in drawing, purchase left-over tags for alternate species/area. If you apply and are not successful the first year, you may apply again if you so choose; there is no expiration on this hunt.

Tags in Wyoming or Montana are harder to draw, but John will work with you if that's what you'd like to try for.

OKLAHOMA SAFARI TRAILS · JANUARY 2010

John Coulter will be your expert "escort" throughout this hunt. John will pick you up at Sioux Falls or Rapid City (depending on what/where you wish to hunt). John will provide ground transport until he returns you to the pickup point. If you hunt in western South Dakota, John, who is a retired teacher, will take you on a tour of area monuments like Mount Rushmore, Devil's Tower, the Crazy Horse Memorial--and of course historic Deadwood!

Again, this description deals primarily with South Dakota, but Wyoming and Montana are also possibilities; John will work with you.

Not included and must be covered by hunters: SD or other hunting licenses, travel to SD meeting point and return home, meals + lodging for hunters and escort, fuel for escort's vehicle throughout hunt, tips for escort. Meals and lodging in South Dakota are remarkably reasonable! Lodging is very modest: only about \$25 per hunter based on two people sharing a motel room!

John, who is the longtime President of MN-WI FNAWS, is an avid hunter and a real people-person. John retired after 35 years of teaching and coaching at a public high school in southwestern Minnesota. John has been hunting in these areas for over 30 years and will share his knowledge of where to hunt, stay, eat and tour with you! John's goal is to teach you his secrets so well you will not need his help next time! He promises to make the trip a memorable one for the hunters who purchase this unique hunting opportunity!

If you go to John's website (<u>www.huntbud.com</u>), you will see that his hunters have taken some awesome antelope, including one that made Boone and Crockett by a full two inches!

If you are the successful bidder on this trip, John will discuss the option of adding some pheasant hunting to your trip to South Dakota:

John's son, Andy, has his own pheasant hunting business, and he offers premium privateland pheasant hunts. Please check this out at: www.discipleguideservice.com.

Framed Giclee Print: "DISTURBED MUD BATH"

Artist: Kobus Möller (2010 SCI Conservation Artist of the Year)

Value: \$1,950

This is a Giclee print of the \$45,000 original oil-on-canvas painted for the 2010 SCI international convention. The subject of this Giclee print is, of course, Africa's famed white rhinocerous.

Internationally acclaimed and the **2010 Conservation Artist of the Year**, Kobus delights in roaming the bush, taking photos of the wildlife he loves so much. He is well-known for his affinity for moving in dangerously close to his subjects to capture the perfect shot. The encounter with this rhino was a memorable one. Kobus recounts, 'I had heard something big wallowing in a mud pool as I slowly approached over a small ridge. Directly in front of me, no more than thirty yards away, was an old rhino bull, wallowing in the stinking mud. I must have stepped on a twig, because he was on his feet in a flash and starting toward me.' Kobus froze and, due to the rhino's nearsightedness, remained undetected and was able to study him for a short while. Suddenly, the rhino wheeled around and charged off, snorting. The painting inspired by that brief confrontation captures the raw intensity of the moment perfectly.

The giclee size will be approximately 24" X 36". The outside frame dimensions will be approximately 36" X 48"

ONE OF OUR TOP SUPPORTERS FOR MANY YEARS!

Description: Unfortunately for the farmers of Northwest Oklahoma, the hogs are here! This is great news for the off-season hunter. The State of Oklahoma does not recognize hogs as a game species, therefore we can hunt them year around with no bag limits.

Although our club members enjoy hog hunting on the entire ranch, we have set aside a very special area for hog hunting by non-club members as well. Our success rate is about 90% for all hunters. We can accommodate rifle, archery, blackpowder, and pistol hunters. Our average hog killed weights between 150 and 175lbs, but we routinely kill hogs over 300lbs. For some added excitement, ask about our hog hunts with hounds, it will cost you a little extra but it is absolutely some of the most exciting hunting you will do! For available hunting dates, please see our <u>reservation calendar</u>.

All accommodations are available on a fourteen-day advance reservation system. Although kitchen facilities are available, meals are not provided.

Hunt & Fish: Two hunters 2 Days/2 Nights for (1 each hunter) 2 Turkeys,

2 Hogs with fishing.

Where: Chain Ranch, Canton, Oklahoma

Date(s) of Trip: available dates, 2010 or 2011

Number of Hunters: Two Hunters

Value: \$1,300

ONE OF OUR TOP SUPPORTERS FOR MANY YEARS!

Description: The Rio Grande turkey population on the Chain Ranch is simply outstanding! Just ask Dick Kirby, owner of Quaker Boy Game Calls. Dick hunted the ranch in the spring a few years ago and was amazed at the number of turkeys he saw during the two day hunt.

Liberal bag limits in Oklahoma and Kansas allow each hunter to bag several toms during the spring season. The population of long beards on the ranch has never been better. We've harvested more than thirty toms in a single spring season.

Unfortunately for the farmers of Northwest Oklahoma, the hogs are here! This is great news for the off-season hunter. The State of Oklahoma does not recognize hogs as a game species, therefore we can hunt them year around with no bag limits.

Although our club members enjoy hog hunting on the entire ranch, we have set aside a very special area for hog hunting by non-club members as well. Our success rate is about 90% for all hunters. We can accommodate rifle, archery, blackpowder, and pistol hunters. Our average hog killed weights between 150 and 175lbs, but we routinely kill hogs over 300lbs. For some added excitement, ask about our hog hunts with hounds, it will cost you a little extra but it is absolutely some of the most exciting hunting you will do! For available hunting dates, please see our <u>reservation calendar</u>.

All accommodations are available on a fourteen-day advance reservation system. Although kitchen facilities are available, meals are not provided.

P. Kelley <u>Original Artwork</u> from Leatherwood Arts "In Your Face"

Something very special--another original only for our chapter!

AN ORIGINAL IN ARTIST OILS ON AUTHENTIC TURKEY TAIL FEATHERS

VALUE: \$2,000

Double Matted and Framed in solid wood. Framed approx. 28" X 30"

NO IMAGE IS AVAILABLE, SINCE THIS IS A WORK IN PROGRESS; BUT NO DOUBT IT WILL BE BEAUTIFUL!

In the artist's own words...

"Wildlife feather art has long been the focal point of my artwork for many years. Beginning with the Bass Pro Outdoor World stores in 1995 my unique art of portraying wildlife on the unusual canvas of the authentic turkey feathers has also offered me the opportunity to acquaint myself with many interesting and dedicated wildlife conservation organizations....

By using the authentic turkey tail-feathers as the basis for the background of my wildlife renderings, I am not only taking reference from nature and the awesome wildlife there-in, but actually using a part of nature in the whole creative process.

My art has traveled far and wide, to now be found with the conservation organizations of The Mule Deer Foundation, Quail Unlimited, Safari Club International, Quality Deer Management Association 2009-10, Nite Lite Corp., Wall Street Creations, and other home-decor. retail outlets."

"In Your Face" is just that, a huge bull elk, head thrown back, making that awesome bugle that we all seek to hear. This bull bust and rack would be a trophy and a delight for any elk enthusiast. Another original to grace your Oklahoma Station Chapter SCI annual banquet for 2010. The piece will measure approximately 28x30inches, be double matted to accent the art portrayed, and be framed in solid wood. Also to include the Oklahoma Station Chapter 2010 name plate. As with my previous paintings, this is sure to be a collector's piece and invoke interest from the hunter as well as wildlife and nature enthusiast at heart!

SEE OSC MEMBER ALLEN ENGLAND'S ARTICLE, PG. 25 OF THE AUGUST '08 ISSUE OF OKLAHOMA SAFARI TRAILS MAGAZINE!

Type of hunt: One hunter for 6 Days/7 Nights for black bear
Where: British Columbia, Chilcotin wilderness area

Date(s) of Trip: May 20-26 & May 27-June 3, 2010 only (no other dates or year)

Value: US \$5,500

Description: Guided Black Bear Hunting in British Columbia, rifle or archery. Hunt dates are when the bears are fresh from hibernation, and hides are excellent.

This area has a very high population of LARGE color phase black bears, because of excellent habitat and the fact that it is not over hunted. We mainly hunt them only two weeks in the Spring season when they are fresh out of hibernation and concentrated on feeding areas where they are relatively easy to find and stalk. The hides are excellent at that time, much better than coastal bears because of our colder temperatures. Success rates are very high during this time, averaging 170% for many years, because many hunters will shoot two bears. The hides range in size from 5 feet to 8 feet squared.

Our bear hunting camp is located on a remote lake 80 miles West of Prince George, where I pick you up for the drive to the camp. Prince George has daily commercial flights from Vancouver, and you may also drive to Prince George. The camp is located right in great bear hunting, with good feed close by. From our bear camp we drive old logging roads that lead through old logged areas that produce excellent feed for the bears. We are able to spot and stalk the bears without long hikes. Often we can glass them from a distance and judge their size. We pick up the hides at the camp soon after the kill and fly them to the freezer at the lodge, insuring no spoilage occurs. Rainbow trout are plentiful at the bear camp, also at the main lodge at Moose Lake, where you may stay and fish after you have shot your bears. The floatplane flight to the main lodge for fishing is included in the package price.

Your hunt is 1x1 guided and includes the kill fee for one bear. You may take a second bear, paying only the US\$800 kill fee. Your hunt also includes the transportation from Prince

OKLAHOMA SAFARI TRAILS · JANUARY 2010

George, and the delivery of your trophies to a local taxidermist. A second hunter may be added for US \$5,500 1x1 guided, or the second hunter may share your guide for US \$4,250. As with your hunt, the second person's hunt includes the air charter and the kill fee for one bear; and a second bear may be added for an additional US\$800 kill fee.

Hunting license cost is \$180 CAN. Each bear license costs \$180 CAN. There is a Non-Resident Hunting Preservation Fee of \$125 CAN. All fees are subject to a 5% tax. All guides in BC charge the NRHP fee, and all guides in Canada charge the 5% tax. These license costs, fees, and tax are in addition to the hunt prices but the outfitter will purchase the licenses for you in advance. Any required firearms permit fees, transportation from your origin to Prince George and return, and tips are costs in addition to the hunt fees.

If you've investigated Canadian bear hunts, you've probably found them ranging in price from \$2,500 for the baited tree stand hunts to \$9,000 for a 2-bear hunt on Vancouver Island. The Fawnie Mountain hunt is for the hunter that wants super guides, big bears, quality food and accommodations, many great memories, all at a reasonable price.

Your hosts, the Blackwells have owned and operated this business for 40 years. Some of the guides have been guiding here 16 years, some 12 years, etc. There is a sense of competition among the guides to find the biggest bears. The organization knows how to produce a quality hunting experience for trophy animals.

Suitable rifles are available if a hunter chooses not to bring his/her own. Archery is acceptable. Handguns are not permitted.

A non-hunting companion could stay at the lodge, with fishing and hiking as the activities; or may stay in the bear camp and accompany the hunter in the 4x4 and watching/filming the stalk. Fishing is also available at the camp. Cost for the non-hunter is US\$1,500, including the pick up in Prince George and the float plane flight to the main lodge at Moose Lake.

REASONS TO CHOOSE THIS HUNT

- 1. Our enthusiastic and professional guides.
- 2. Our high success rate on big bears for many years.
- 3. Our great food, accommodations and equipment.
- Our big, plentiful, color phase bears.
- 5. Our commitment to good service, with no more than 6 bear hunters in camp at one time.
